SUMMARY

PHP Laravel developer with experience in creating web applications, I have a great interest in learning different technologies to improve my skills in web development. Therefore, I'm seeking an opportunity to contribute effectively to web projects and develop my skills by working within a team environment.

EDUCATION

Bachelor's Degree in Computer Science, Misr Higher Institute for Engineering and Technology

2020 – 2024
Mansoura, Egypt

PROJECTS

Ecommerce Store (lara-shop) [🔗](#)

Developed an e-commerce website using Laravel, featuring user authentication, product management, and a shopping cart with a checkout process. Implemented order processing, sliders for showcasing featured products, and an intuitive admin dashboard for efficient management of products, orders, and users
Technologies Used: PHP, Laravel, MySQL, Bootstrap, Ajax.

Children Vaccination Management System [🔗](#)

The Children Vaccination Management System is a web application developed using Laravel PHP framework. It provides a platform for parents to register their children, track their vaccination schedules, and receive reminders for upcoming vaccinations. The system also includes an admin dashboard for managing users, vaccinations, and generating reports.

Technologies Used: PHP, Laravel, MySQL, Bootstrap, Ajax, REST APIs
